

## Hoofman's Headache

When given a series of digits,  
I can't help but begin to fidget.  
My mind can't stay still,  
While counting the quill  
Of characters expected within it.

And what of the text? Wonder through and reflect?  
And the form you have sought? Left be less yielding  
naught?

Hoofman's thoughts can't see why one would want to  
multiply!?  
Left and right form anew, but their sums over-grew??

That's optimally not right when compressing.
